

Harshad Kavade

+91 7083095047 | harshukavade07@gmail.com | [LinkedIn](#) | [GitHub](#)
Pune, Maharashtra, India

EDUCATION

- **SCTR's Pune Institute of Computer Technology** Pune, India
Bachelor of Engineering in Computer Technology | CGPA: 9.28 / 10.00 Sept 2023 – May 2027
- **Kedarling High School & Junior College** Kadgaon, Maharashtra, India
HSC: 83.00% | MHT-CET: 99.68 Percentile Feb 2023
- **Abhinav Vidyalay** Aralgundi, Maharashtra, India
SSC: 98.60% March 2021

PROFESSIONAL EXPERIENCE

- **Software Development Intern – Dept. of Computer Engineering** Feb 2026 – Apr 2026
In-House Software Development Internship 
 - Developed **Sahyatri**, a full-stack women's safety application using the **MERN stack** with authentication, trip planning, guardian management, and real-time location tracking.
 - Engineered a **safety-aware routing system** using OpenRouteService, Geoapify, and OpenStreetMap APIs to identify and recommend safer travel routes.
 - Implemented a real-time **SOS emergency response system** using **Socket.IO**, live location sharing, and automated WhatsApp alerts for emergency communication.
 - Designed an **offline-first SOS mechanism** that queues emergency alerts locally and automatically processes them when network connectivity is restored.

PROJECTS

- **DevCollab – Developer Collaboration Platform**  
Tools: React.js, Node.js, Express.js, MongoDB, Socket.IO
 - Developed a **full-stack developer collaboration platform** enabling developers to discover projects, form teams, manage tasks, and collaborate in real time.
 - Designed secure **RESTful APIs** using Node.js and Express.js with **JWT authentication** and role-based access control for multi-user workflows.
 - Implemented **task management, project management, and team collaboration** features with MongoDB-based data models.
 - Integrated **Socket.IO** for real-time project communication and instant notifications between users.
- **AI Video Assistant** 
Tools: Python, LangChain, Mistral AI, Tavily, REST APIs
 - Developed an **AI-powered video assistant** capable of processing video content and generating intelligent responses using Large Language Models.
 - Integrated **LangChain** to build an agent-based workflow connecting LLM reasoning with external tools and application functionality.
 - Implemented **Mistral AI** for natural-language understanding and response generation, enabling users to interact with video content conversationally.
 - Integrated **Tavily Search API** as an external tool to retrieve relevant web information when additional context was required.

SKILLS

- **Languages:** C++, Java, JavaScript, Python, SQL
- **Core CS Fundamentals:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, REST APIs
- **Frameworks & Technologies:** React.js, Node.js, Express.js, Tailwind CSS
- **Database Systems:** MongoDB, MySQL
- **Authentication & Libraries:** JWT, bcrypt, Socket.IO
- **Gen AI:** LLMs, RAG, LangChain, Prompt Engineering, Mistral AI
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Vercel, Render, Cloudinary

ACHIEVEMENTS

- Solved **500+** Data Structures and Algorithms problems on [LeetCode](#) with a maximum rating of **1734**.
- Achieved **2-Star** rating on [CodeChef](#) and solved **100+** programming problems.
- Secured **99.68 percentile** in the Maharashtra Common Entrance Test (MHT-CET).
